**Donovan joins Cyanosis for XPD Portugal**

We've all seen Nicholas on crutches and sadly his injury is too severe to allow him to race in Portugal at the beginning of December. Donovan Sims has been recruited to the team. He will join Arrie, Ryno and Susan for this 500km unsupported race.

This country-bumpkin has not been further North than Mocambique so he is understandably excited. It is no wonder that he leapt instantly at the opportunity to travel abroad to compete with this experienced team in this international event. Donovan is an experienced navigator and strong athlete in all disciplines so he will certainly slot into the team with ease.

All is not dark clouds for Nicholas... I've recruited him to be our on-the-ground reporter. Nicholas will join XPD's media team and will be feeding us regular reports and photographs from the race.

Portugal XPD race is scheduled from 2-9 December in Estoril. It is a qualifier for the AR World Champs. Distance is 450-500km. Website is [www.portugalxpdrace.com](http://www.portugalxpdrace.com)

More news to follow on [www.AR.co.za](http://www.AR.co.za) as their preparation progresses.
