Adventure Races

The link below will take you to photos from the 4 day adventure race in Estoril, Portugal. Team Feed The Machine was the only U.S. entry out of 36 teams from 15 different countries. We pulled off an amazing 4th place finish in a race which consisted of mtn. biking, coasteering, trekking, kayaking, ropes, inline skating. All this while only sleeping for a total of one hour and forty five minutes in 4 days. What an adventure!
